How to calculate Outside (shaft) dimensions:

- Plus dimensions if doors on side A or C (mm)
- Plus dimensions if doors on side A & C (mm)
- Plus dimensions if doors on side A or C & B (mm)
- Plus dimensions if doors on side A, C & B (mm)
- Plus dimensions if doors on side B (mm)

Note that if doors are only on side B, electric control cabinet must be in a separate box.

Box size(mm) W= 600 x H= 700 x D= 200

Cut-out dimensions +30mm on each way.

Example: 2
